Correction Notice

Corrigendum to "Theory of hyper-singular integrals and its application to the Navier-Stokes problem, Contrib. Math. 2 (2020) 47–54"*

Alexander G. Ramm†

Department of Mathematics, Kansas State University, Manhattan, KS 66506, USA

In the paper [1], there is a misprint: on the first line of proof of Theorem 5.2 in place of $v_0(x) > 0$ should be $v_0(x) \not\equiv 0$ and $\nabla \cdot v_0 = 0$.
